

MATERIALS

1 sheet double-sided paper cut to 8" (20.5cm) square

Glue stick or white glue

Sepia-toned photo or school photo

Colored card stock cut to 4¼" x 6¾" (12cm x 17cm)

1 blank greeting card, 5" x 7" (12.5cm x 18cm) when closed

1 sheet coordinating paper cut to 2¼" x 6¾" (5.5cm x 17cm) strip

Removable double-sided tape or poster tack

Tassel or other desired decorations

FINISHED SIZE

5" x 7" (12.5cm x 18cm) when closed

FOLD THE FRAME

1

With the main color of the double-sided paper facing down, fold the paper in half vertically, horizontally, and in both diagonal directions. Unfold the paper and turn over.

2

With the main color facing up, fold each corner to the center. Unfold the paper and turn over.

3

With the main color facing down, cupboard fold the left and right sides to the center crease.

4

Cupboard fold the top and the bottom edges to the center.

5

Open one pocket and pull out the corner. Flatten along the crease so that it points out at an angle.

6

Do the same with the remaining 3 pockets.

7

Fold the tip of the pocket to the center on all 4 flaps as shown.

8

Open each corner, lay it over the top, and flatten to form a small square.

9

Fold the flaps pointing toward the center in half, facing outward.

10

Mountain fold a raw edge on one point under to the flap's center line. Repeat with the other 7 flap edges.

11

Valley fold each inside triangle up so the point touches the outside edge and crease well. Apply a little glue to each flap so that they stay flat.

12

Cut the photo a little larger than the frame opening, which is about 1⅞" (4.8cm) square, and slip it into the frame.

ASSEMBLE THE CARD

1

Glue the piece of colored card stock onto the blank greeting card.

2

Glue the strip of decorative paper vertically along the center of the card.

3

Attach the folded frame using removable double-sided tape or poster tack.
