Penny Drive

Want to raise money for charity?

Why not have a
PENNY DRIVE?

1. Choose a charity you would like to donate your money towards.
2. Find a jar/box/container to hold the money that you collect and decorate it. Be sure to leave an opening at the top for people to put in their change.
3. Choose a spot where as many people as possible will see the jar. If you are holding it in school, why not choose the main office; if you are holding it at home, how about in the kitchen?
4. Let people know about your drive by sending out notes or e-mails and making announcements. Be sure to explain what charity you plan to help with your donation, that anyone can donate loose change, and when the drive will start and finish.
5. After the drive is over make a thank-you note for everyone who donated money and put it in the same place where the container was.
