## Titles to Treasure

**Directions:** The book of Aristotle's writings was a treasure. Make a treasure hunt for your favorite book, writing clues to help others discover your treasure.

1. Inside the treasure chest draw a picture from your favorite book.
2. Under the gem stones, write clues about the book. For a fiction book, your clues may include the author's name, setting, description of a character, or a problem in the story. For a nonfiction book, your clues may include the topic and a few interesting facts.
